

*Multi-Pure Drinking Water Systems*

## MULTI-PURE WATER FILTER SALE!

Convenient, pure, clean, and lab-tested,  
for about **8¢ a gallon** over the life of the unit!  
If you buy bottled water by the bottle, you can spend over **\$8 a gallon!**

Hi, I'm **Gina Orlando**, a wellness consultant with a passion to help people get healthier. Drinking pure, clean water is basic for life and your health. Most people know that and they are making an effort to drink more pure water. Yet, water quality in bottled water and with filters is confusing and varies greatly in quality. In fact, many bottled waters are not much better than tap water, plus they all contain chemical plastic residue (which the body perceives as estrogens), and the water is very expensive. Not only that, but the plastic pollution is becoming such a problem that California is now bans plastic water bottles! Other states will follow. What to do?

**If you buy bottled water, figure out how much you spend on it in a year for you and your family. Do you want to know a way to save lots of money on clean water?**

There is a wide range of filters and filtering systems. You have to be a well-informed, savvy consumer to understand the exact chemicals and particulates the filter is taking out of your water, and at what cost. Brita, for example, is a poor water filter and is actually quite expensive [more on this below].

Chicago tap water is deceptive because it's clear and has the reputation of being "good municipal water." It is. But that doesn't mean that it's clean and clear of toxins. It has enough chlorine in it to bleach your insides, and remember that chlorine gas is a toxin. They have used chlorine gas in wars. Chicago water has many invisible chemicals from industrial and farm run-off at accumulated levels that are unsafe for your body. And then there's the lead and other toxins that are in your pipes.

Remember that **your body is 70% water**. Please don't drink tap water!

What if you could easily clear over **99%** of those chemicals from your tap water, leave in the minerals, and have healthy, convenient filtered water for less than **8 cents a gallon**? You can, with a **Multi-Pure solid carbon block filter**. I've sold a lot of these units since 1985 and have used this brand myself since that time. I never have had a customer complaint. **There is a 25-year warranty and Multi-Pure is recognized as a**

**Consumer Digest Best Buy.** To learn how solid carbon block technology compares to other filters, go to [http://www.multipureco.com/product\\_comparison.htm](http://www.multipureco.com/product_comparison.htm).

I also love that **Multi-Pure** is consistent in having **independent labs test** their units which show the exact chemicals and levels before and after filtration. I am still impressed and I have not found another company that is so thorough and consistent in their testing. See the lab report at <http://www.multipureco.com/br170.pdf>.

**Brita:** I looked on the Brita official online store site and there was no lab report, just some vague advertising copy about the few chemicals it takes out, without verifying quantities. Sorry, you need to take out **all** of the toxic chemicals from the water. And Brita is very expensive. Your body deserves and needs clean water.

**Reverse osmosis:** Some think that RO (reverse osmosis) units are the answer. But RO units take out **too** much—they take out all the minerals. Humans have always drunk water with minerals in it (which is why some bottled waters **add** minerals for taste). Also, all RO units waste between 3–10 gallons of tap water to get one gallon of filtered water. The system inconveniently drips the clean water into a holding tank.

So I am excited about presenting this SALE to get **you** excited about convenient, pure, clean water. I am offering a wonderful SALE PRICE on either of the two of the most popular Multi-Pure water filter units.

Check out the units at <http://www.multipureco.com> and then email me at [GOrlandoMA@aol.com](mailto:GOrlandoMA@aol.com) or call me at 708- 524-9103 to order at the sale price. **IMPORTANT: You will NOT be able to get the sale price from contacting Multi-Pure directly—only by ordering from me!**

Here are the details:

The **MP750SB** stainless steel under-the sink unit is easy to install, and generates 750 gallons of clean, pure water at the touch of a lever. Regularly \$399.95, **on sale for \$349.95 -- a \$50 savings!**

◀ MP 750SB

If you live in an apartment, you may prefer the **MP Aqua Dome**, which is an on-top-of-the-sink unit with a plastic outer case and a 750-gallon capacity. Regularly \$224.95, **on sale for \$184.90 — a \$40 savings!**

MP Aqua Dome ▶

**For great water at a great price, call GINA ORLANDO at (708) 524-9103 today!**  
[GOrlandoMA@aol.com](mailto:GOrlandoMA@aol.com) • [www.ginaorlando.com](http://www.ginaorlando.com)

Each of these requires a replacement filter about once a year at \$56.95 to maintain its efficiency. You may order a replacement filter at the time of purchase, if you wish, or arrange for auto-reorder to get the filters at a lower price.

**Order from me now to SAVE \$50 on an under-the-sink Multi-Pure home water filter! Or SAVE \$40 on the counter model. Just call me at (708) 524-9103 or email me at [GOrlandoMA@aol.com](mailto:GOrlandoMA@aol.com)** for more information and to order your unit. Checks or credit cards are accepted. If you live near Oak Park and you'd like to come over and see the unit and taste the delicious water, you are most welcome; just give me a call! (Again, I use this product at home.) Tell your friends, neighbors and co-workers, too. People are aware that they need to drink pure water, but don't have good data on how to make a decision to get the best quality at the best price. So share this information with them; they'll thank you for it.

I've been selling these units for 22 years. A sampling of customer comments:

- ◆ *"I love the taste of the Multi-Pure water. It tastes so clean. It's so convenient. I think of all those years that I bought bottled water and lugged those bottles home! I'm saving money and get better quality water."*
- ◆ *"I LOVE it! I wish I would have done this years ago."*
- ◆ *"I'm so excited about this product that I want to sell them to others!"*
- ◆ *"Thanks for educating me about various water filters, and the benefits of the solid carbon block. I was so impressed with the lab reports. It frightened me to know how many chemicals are actually in tap water. I feel so good about this purchase for the **health of my family.**"*
- ◆ *"My wife is into health stuff, so when she got this water filter I thought that we didn't need it. But I realize now **how much better the water tastes** and I'm sold on this unit."*
- ◆ *"My kids drink more water now because they like the taste and they like to use "their special faucet. I'm grateful."*
- ◆ *"It's so **easy and inexpensive** to have clean water at home!"*
